The Famous Plano Fly-Wheel Attachment

Is furnished with the Jones Lever Binder. It is a most valuable attachment because:
THE FLY-WHEEL causes a binder to work with even, steady motion over rough, uneven ground.
THE FLY-WHEEL causes a bundle to be bound tightly without checking the motion of the machine.
THE FLY-WHEEL causes a binder to run lightly over soft or wet ground, where it would otherwise mire down.
THE FLY-WHEEL causes a binder to remain in motion while turning a corner.
THE FLY-WHEEL causes a bundle to be bound and discharged after the team stops, leaving the sickle and canvases absolutely clean.
This Valuable Attachment is Furnished Only With the JONES LEVER BINDER.
THE JONES LEVER BINDER has the simplest knott in the world, and it has one-half less pieces than its simplest rival. It is the most perfect in the world.

THE EMPIRE DISC DRILL.

The Best Disc Drill made. This is a superb machine, and will give perfect satisfaction where a Disc Drill will not work. It will never clog up with corn stalks, weeds and grass, or foul trash of any kind. It does not make any difference how hard the ground is, or how thick the trash, it will do excellent and successful work. The work of the Empire Disc Drill has proven, without a question, more satisfactory than a Hoe Drill, for the reason that a Hoe Drill will carry light trash before it, thereby leaving ruts in the field. With our Disc Drill all of this trouble is overcome, as the disc will ride over and press into the ground all foul stuff and trash of any nature.

But talk about good things, an entertainment, concert or show, just as you will, was given as "white folks" as a treat, by the "colored society" element on Saturday evening, and at the last of the "informance," a cake walk that was "most the whole thing" was given that would have made "Frog Eye" green with envy, and wish he had never lived to hear of the Stephensport walkers. And long toward midnight after being thanked by the manager of the affair for our "sincere attention" and "kind behavior" the curtain dropped and they were left to wind up with the never-to-be-left "festival."

IN MEMORY.

Of little Nannie Wraether who departed this life on March 19th, 1899. We speak of her as little, though she would have soon entered her 15th year, to her friends she was only little Nannie, and a sweeter dearer child was never sent to bless a happy home. She was stricken with typhoid fever several weeks before her death and all that could be done by loving hands was done to keep dear Nannie, but God knew best and plucked the half opened bud to bloom in His kingdom. A loving father and brother are left to mourn her loss and a gloom of sadness is cast over her school-mates when her name is whispered among them, for no one knew her but to love her gentle ways.

Her little schoolmate,
NELLIE B. SMITH.

Bismark's Iron Nerve

OLD SAWS RESET.

Not all gold gliters.
It's short lane that has no turn.
It's a good wind that blows nobody ill.
A bird in the hand should be caged at once.
Faint heart never won a jack-o't from a blower.
There's many a slip 'twixt the race and the tip.
A rolling stone finds at last a hollow that fits it.
A penny saved is usually five cents' worth of time wasted.
Where ignorance is bliss there is an inviting 6-11 for the green-goods man.
